

Technical Data Sheet

Product Name

Water System Antifreeze

Available Packages

Packages	Part number
3.78L	600016378 (Case of 4)
9.45L	600016A09
208L	600016308

Introduction

Protect your water systems with the power of our high-performance antifreeze, designed to withstand the harshest winter conditions.

Our innovative formula provides reliable protection down to -50°C , preventing pipe cracks and bursts during the winter.

Ideal for water systems in boats, recreational vehicles, pools, and septic tanks, it ensures worry-free winterization and complete peace of mind.

Features

- Protect against freeze bursting down to -50°C
- Versatile use for plastic or metal pipes.
- Salt-free
- Ready to use
- Non-toxic

Instructions for Use

Drain the water lines. Add antifreeze to the lines until the colored liquid appears at the end.

When reactivating the system, flush with water.

Warning

Do not use in combustion engines such as gasoline, diesel, electric, generators, heating loops, or closed-circuit refrigeration systems.

Refer to your equipment's operating manual for the correct quantity to use. Keep out of reach of children and pets.

Contact your local municipality for proper disposal of the product.
